## **Some Imagination Activities:**

Fun things to do together:

- \* Put two kitchen chairs side by side and pretend to play cab, train, bus, etc. What are the different sounds you would hear? What would you see?
- \* Get a box (a shoe box or something bigger if you want to). What would your toddler use this box for? What can it be?
- \* Play the "I Think I Can" game by taking turns and saying things like, "I think I can touch my nose..."
- \* Cut out some pictures or save some boxes of different kinds of foods you and your toddler eat. Then have your toddler go "grocery shopping." Why do they buy certain things? What are they going to make with it? You can continue this game into "making dinner" or "putting up the groceries," etc.

## **If You're a \_\_\_\_\_, and You Know It**

If you're a monster, and you know it, give me a roar. If you're a monster, and you know it, give me a roar. If you're a monster, and you know it, then you must surely show it. If you're a mon-ster, and you know it, give me a roar.

If you're a fish, and you know it, wave me a fin. If you're a fish, and you know it, wave me a fin. If you're a fish, and you know it, then you must surely show it. If you're a fish, wave me a fin.

(You can do this with any animal or character, whether real or imaginary, and then name what they do)
